REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance: The primary reason for allowing this application is the specific recitation in the claims of an antitheft apparatus for a vehicular audio component wherein a current VIN is compared to a previously stored VIN whenever the vehicle's battery has cycled and the audio component is disabled whenever the current VIN is not identical to the stored VIN; and provides for storing a preselected component identifier code in non-volatile memory of the audio component; and whenever the current VIN is not identical to the stored VIN, requesting entry of a code into the audio component; and overriding disablement of the audio component whenever an entered code is identical to the stored preselected component identifier code.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
